

SENATOR HARTNETT: Mr. Speaker, members of the body, what this does is that, what the bill does right now, we've had, since 1988, a requirement that one member of a planning be from the extraterritorial zoning and it only deals with first and second class cities and villages. And we had a hearing last year and most of our hearings that the Urban Affairs Committee are not very exciting but we had a very exciting one in Senator Withem's district dealing with the area planning and Board of Adjustment. And so what this does is simply say that when the next vacancy occurs that a member of the Board of Adjustment will come from this extraterritorial zone. That's the bill and what the amendment simply says is that there has to be, that there has to be 200 people that reside in this particular area to have a person come from this area. So it simply allows the people outside the city to have a voice in decisions made about their lives and their zoning and adjust...so it deals just with the Board of Adjustment. With that I'd ask for the adoption of the amendment and advancement of the bill.
